Schofield, WI

## **To whom it my concern:**

Thank you for reviewing my letter. I am submitting this cover letter and resume in the hopes of having the chance to join your team as an IT intern. I am currently enrolled in the IT Software Developer Associates degree at NTC with an expected graduation 12/2019 and have currently completed a Database Specialist Certificate. I know I would be a great addition to your team because I constantly think of the bigger picture and I have a mind for seeing patterns and opportunities. Developing for future efficiency and with consideration for those around me are what I strive for in my work.

My skills are focused in the use of C# for software development from WPF applications to HTML applications. I also have strong skills in the management of databases and data analytics. I have developed applications using that utilize object-oriented design patterns and practices. I have done some full stack development and created a website that allows users to create accounts and upload video files to an FTP location so that other may view them using ASP.NET Core and Framework using MVC and MVVM application designs. I have also collected survey data and performed analysis that provided useful insights using MongoDB, R, and Tableau. Those are two major projects that highlight my skillset, but my knowledge and experience are constantly improving and evolving.

Most of my leadership and communication skills come from being a team mentor at Target. Being a team mentor (trainer) at Target meant that everyone felt comfortable coming to me for their questions, and I would be able to point them in the right direction for the answer. Through good commutation, had a direct hand in changing how they ran their daily processes in the store on the logistics end. The people I worked with considered me helpful and polite with a hard work ethic.

Again, I would like to thank you for reviewing my application letter and look forward to scheduling an interview with you in the future. You may contact me via my phone (715-432-9101) and email ([mschneider2628@gmail.com](mailto:mschneider2628@gmail.com)).

**Sincerely,**

**Michael Schneider**
